EDUCATION

Degree / Qualification	Institution	Year	Score
Bachelors of Technology (Hons.)	Indian Institute of Technology, Roorkee	2018 – 2022	CGPA: 7.89/10.0
CBSE (Class XII)	Kendriya Vidyalaya No.1, Jaipur	2017	95%
CBSE (Class X)	Kendriya Vidyalaya No.1, Jaipur	2015	CGPA: 9.80

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer | Ensylon, Jaipur (Jun 2025 – Sep 2026)

- Leading end-to-end product design for **EquiTrust's Fintech and Insurance digital ecosystem**, including the **Quotient hiring platform** and **4+ enterprise insurance tools** across **policy, retirement, and annuity workflows**.
- Designed and optimized multi-step user journeys within the Quotient platform, covering **candidate onboarding, profile creation, job workflows, and recruiter interactions**.
- Delivered **30+ wireframes, user flows, and high-fidelity prototypes**, reducing **design iteration cycles by ~30%** across stakeholder reviews.
- Conducted structured **user research with 30+ participants** in 2-week cycles, identifying usability gaps and improving **task completion rates by ~25%** across hiring and internal workflows.
- Built and scaled **reusable design system components** across hiring and **insurance products**, reducing **design-to-development turnaround time by ~35%**.
- Delivered **developer-ready specifications, interaction states, and edge cases**, improving **implementation efficiency by ~34%** and reducing rework.
- Collaborated with **US-based stakeholders, product managers, and engineering teams** to translate complex **hiring and insurance requirements** into scalable UX solutions.
- Contributed to **product direction** by presenting **UX insights** that influenced **feature prioritization and roadmap decisions**.

UI/UX Designer | Oolook, Jaipur (May 2023 – Apr 2025)

- Designed end-to-end user experiences across web and mobile platforms, structuring core user journeys from onboarding to key feature interactions.
- Created scalable information architecture and interaction models, improving task completion rates by ~25% across primary user flows.
- Conducted usability testing and iterative design improvements, increasing user satisfaction by 15–20% based on feedback and usage patterns.

- Collaborated closely with product managers and engineers to translate requirements into feasible, high-quality design solutions.
- Delivered high-fidelity prototypes and developer-ready specifications, reducing ambiguity during implementation and improving delivery speed.
- Contributed to feature prioritization by leveraging user insights, aligning design decisions with business and product goals.

UI/UX Design Intern | BrainQuest (Remote) (Feb 2023 – Apr 2023)

- Iterated on designs using stakeholder feedback and usage insights, improving clarity and efficiency across key financial interactions.
- Delivered end-to-end UX solutions across fintech and insurance workflows by aligning user needs, business requirements, and system constraints, contributing to scalable, conversion-focused product experiences.
- Built intuitive interfaces for financial dashboards, policy comparison views, and transaction tracking systems, improving usability of data-heavy and high-frequency workflows.

Software Development Engineer | Apple Maps Via ThoughtGenesis, Hyderabad (Jan 2022 – Jan 2023)

- Improved map-based user experience by enhancing visualization logic for geographic data layers (e.g., water bodies) across multiple zoom levels.
- Designed and implemented data optimization pipelines, achieving ~487% improvement in data accuracy, consistency, and availability for map interfaces.
- Worked on system-level design for data-driven UI behavior, ensuring consistency and scalability across large datasets and edge cases.

UI/UX Design Intern | Trumсы (Remote) (Apr 2021 – Dec 2021)

- Owned the end-to-end design lifecycle for an EdTech startup's gamified learning platform for kids, translating complex user needs into intuitive UI flows and engaging learning experiences aligned with product KPIs.
- Collaborated closely with PMs and developers to define product features, apply usability best practices, and deliver high-impact design solutions under tight timelines.

SKILLS

Category	Skills / Tools
Design	User Experience (UX) Design, User Interface (UI) Design, Enterprise Product Design, SaaS Product Design, AI/LLM UX Design, Conversational UI Design, AI Copilot Experience Design, Prompt UX Design, Dashboard & Analytics Design, Data Visualization, Design Systems, Component Libraries, Information Architecture, User Research, User Journey Mapping, Wireframing, Prototyping, Interaction Design, Responsive Design, Mobile App Design, Web Application Design, Accessibility (WCAG), Usability Testing, Design Thinking, Visual Design, Heuristic Evaluation, Design Strategy, UX Writing, User-Centered Design
Development Collaboration	HTML5, CSS3, JavaScript Fundamentals, Bootstrap, Responsive Web Design, Mobile-First Design, Design-to-Development Handoff, Figma Inspect, Component Libraries, Design Systems, Developer QA, Frontend Feasibility Review,

Category	Skills / Tools
	Cross-Functional Collaboration, Agile/Scrum, Stakeholder Management, Product-Engineering Collaboration
Tools	Figma, FigJam, Adobe XD, Photoshop, Illustrator, Miro, Jira, Confluence, Notion, Cursor, Lovable AI, V0 by Vercel, ChatGPT, Claude, Gemini, Stitch, UX Pilot, Readdy.ai, Wix, WordPress, Maze, Zeplin, Chrome DevTools

CERTIFICATIONS

Certification Name	Organization	Date
Google UX Design Professional Certificate	Google	Jan 2024
Using AI in the UX Design Process	LinkedIn Learning	Jan 2024

POSITIONS OF RESPONSIBILITY

Head Team Member, Design Fest IIT Roorkee
- Headed the IIT Roorkee Design Team at the Design Rush Fest hosted by IIT BHU, leading the design studio in conceptualizing and executing award-winning designs. - Recipient of the Best Design Award in the Design Rush competition, organized by IIT BHU, out of 1200+ participants, for the design of <i>Trado</i>, a Crypto Trading app.
